**Avi's Skype Visits**

*If you wish to inquire about having Avi make a Skype visit to your classroom, library, book club, or bookstore, please contact [inquiry@windingoak.com](mailto:inquiry@windingoak.com).*

"The kids were amazing! So thoughtful, organized and behaved – and they LOVED the Skype! I always do a 'zero to five' exit poll and you got a resounding 10! I heard a lot of 'that was SO cool!', 'he was so nice!' after our session. Our principal was very impressed with the session and your willingness to use technology to connect with your readers. ... I thought it was wonderful how you brought in bits of your personal life - that made you that much more "real" to the students and has the greatest impact on what endures in their busy minds."

— M. Provost, NH

"Students came away with new insights about the books and a reinforcement of the process and craft of writing. . . . All of the students were interested in the answers for all of the questions, which I thought was a great sign. The faces of the whole class lit up with each answer! I wish we could capture that!"

— V. Federici, CT

"I am most moved by the opportunity for my students and myself to visit with you. What a gift you have given so many! Your gentle demeanor, timely humor, coupled with your humble friendliness, gave us all, in our own way, hope for our dreams and a memory for days to come."

— L. Martin, ID
